Don't miss our upcoming webinar, where we will explore the critical importance of collaboration between legal and security teams in today's privacy, security, and compliance environment.

Join industry experts [Larry Kinkaid](#), cybersecurity consulting manager at BARR Advisory and [Tedrick Housh](#) and [Alexandra Bass](#), attorneys in Lathrop GPM's Privacy and Cybersecurity Compliance practice, for an engaging discussion on how legal and security teams can work together to navigate the complexities of data privacy and security compliance. In this webinar, you will:

- Gain practical insights on building a strong collaborative relationship between legal and security teams.
- Discover strategies to gain stakeholder buy-in and redefine compliance as a shared responsibility.
- Learn how legal teams can outline compliance requirements while security teams translate them into actionable technical steps.

This session is ideal for legal professionals, security experts, and business leaders who want to enhance their organization's compliance framework and ensure
