

Data Privacy and Information Security: Protecting Your Company

December 9, 2014

Speaking Engagement

The Metropolitan
5418 Wayzata Blvd.
Minneapolis, MN 55416

A Lunch and Learn Presented by The MNACCA Education Committee

Many companies manage huge amounts of personal data, including employee and customer personal information. We will discuss a variety of ways to manage risks associated with information security, including compliance with U.S. and foreign data privacy laws, data management, vendor agreements, cyber liability insurance, and data breach response plans.

Join Gray Plant Mooty's Jennifer Debrow and Kate Nilan at the lunch and learn for a discussion on protecting your company's data privacy and information security.
