

International Development

Just as franchisees invest in a franchise to take advantage of the experience of a franchisor (obtain the advantages of learning a business from someone who has already demonstrated how to successfully operate and replicate a business) wise franchisors and manufacturers invest in experienced international franchise and distribution lawyers when expanding across national borders. Having represented franchisors in international transactions for five decades, Lathrop GPM's international franchise and distribution lawyers understand international franchising and distribution, and the issues and laws that international franchisors and franchisees confront. We focus on practical ways to help our clients achieve their expansion goals. We have identified a cadre of experienced franchise and distribution law lawyers in countries all over the world and work with them to help our clients deal with the nuances and practicalities of using international franchising and distribution programs in their countries. Our team of lawyers has represented companies in virtually every industry, in virtually all major countries, and in many emerging countries. We have learned the questions to ask and have developed the agreements, disclosures, and relationships that give our clients excellent, cost-effective legal services.

Knowing our clients business goals and how to help them formulate expansion strategies and negotiate with prospective foreign partners makes us an invaluable member of our clients development teams. If you are a franchisor or manufacturer executive who is considering your first or fiftieth international transaction, we have helped many others like you, and would like to talk with you about our approach and how it may benefit you.

Our reputation for international franchising services is stellar. We are ranked by Chambers Global, Who's Who International and named the 2021 Best Franchise Law Firm by Global Franchise Magazine. We are regularly asked to make presentations at meetings hosted by the

International Franchise Association, the American Bar Association Forum on Franchising, the International Bar Association, and the International Distribution Institute. We have written articles for their publications and have published books or book chapters on international franchising.
