"Practical Insurance Guidance for Franchisors," ABA Forum on Franchising

December 16, 2015

Webinar

Via live webcast

Join Gray Plant Mooty's Nick Nierengarten for a live webinar on Wednesday, December 16, hosted by the American Bar Association's Corporate Counsel Division of the Forum on Franchising. This webinar will provide an overview of insurance coverages that are available to protect against today's "hot topics" that franchisors face, including cyber risks, franchisor's errors and omissions, and employment risks such as joint employer liability.

In addition, webinar attendees will receive updates on recent changes to "Additional Insured" endorsements and how these changes impact their protection under their franchisees' insurance. The presenters will discuss sample franchise agreement provisions and standards dealing with insurance related issues, which you may want to incorporate into your agreements to ensure that proper coverage is in place.
