

Title IX/VAWA Investigator Training

January 15, 2020

Firm Event & Webinar

Higher education institutions are **legally required** to provide **specialized training** on an **annual basis** to individuals responsible for investigating sexual assault, dating violence, domestic violence, and stalking complaints. Given these legal obligations, the **heightened focus on enforcement of Title IX**, and the **increasing complexity** of sexual misconduct investigations, it is more important than ever that your Title IX **investigators** are **well-trained** on sexual misconduct matters and that they understand the impact **trauma** has on those who are the subject of sexual misconduct proceedings.

Join us for a **six-hour in-depth training** specifically designed for Title IX investigators. The benefits of our training extend beyond merely satisfying your annual **training requirements**. Our training is **conducted by Higher Education attorneys** who regularly advise institutions on all aspects of the sexual misconduct process, from policy drafting through the final resolution of sexual misconduct matters. Because these attorneys also have **extensive experience investigating and adjudicating sexual misconduct** cases for institutions, this training incorporates first-hand, real world experience and provides practical guidance on navigating the complex issues that arise during this process.

This session will also specifically address the **impact and challenges of trauma** in investigating allegations of misconduct. Additionally, attendees will have the opportunity to put their training into action as they **work together to investigate a sexual misconduct case** and receive valuable, **in-the-moment feedback** from Higher Education attorneys. Attendees will receive a **certificate verifying their completion** of the training session.

This training will cover:

- A legal overview of Title IX and VAWA
- The role and responsibilities of Title IX investigators
- The effects of trauma

- Coordinating with law enforcement
- Investigation stages
- Effective investigation strategies and techniques
- Drafting an investigation report
- Discussion of the investigation of a hypothetical case
