

The header graphic for the Copyrights section. It features a light gray background with a subtle pattern of small dots. On the left, there is a large, stylized graphic of three overlapping triangles in shades of blue and purple. To the right of this graphic, the word 'Copyrights' is written in a large, bold, sans-serif font. The right side of the header features a vibrant, abstract image of a blue and yellow light trail, suggesting motion and technology.

Copyrights

Lathrop GPM's Copyright team is dedicated to putting clients in the best possible position by helping with copyright registration, licensing, and enforcement both internationally and within the United States. Our copyright attorneys work closely with clients to identify copyrightable material, such as software, training manuals and website content, and secure registration rights through the U.S. Copyright Office. We vigorously protect copyrights by stopping unauthorized use of protected content and litigation in federal court.

The team's services include:

- Copyright protection and registration counseling
- Copyright registration
- Authorship and ownership issues
- Copyright terms
- Fair use analysis
- Copyright agreements
- Digital Millennium Copyright Act
- Copyright infringement litigation

Experience

- Maintain the copyright portfolio for one of the world's best-selling art licensors and illustrators.
- Serve as copyright counsel for one of the nation's premiere liberal arts universities.
