judith.stone-hulslander@lathropgpm.com

Dr. Judith Stone-Hulslander holds a Ph.D. in molecular genetics and microbiology and has approximately 20 years of intellectual property experience. She focuses her practice on patent preparation, prosecution and client counseling in all areas of biotechnology. Judith has extensive research experience in virology, molecular biology, cell biology and protein biology. She has particularly strong patent experience with therapeutic antibodies and antibody-like molecules for a variety of disease indications, and also has done extensive patent work in the areas of molecular virology, RNA therapeutics, glycoengineering technologies, and gene therapy technologies.

Prior to joining the firm, Judith was an attorney for a Boston intellectual property law firm.
