

NATIONAL FIRM

Lathrop GPM is a full-service law firm with 14 offices located from California to Boston. Our nearly 360 attorneys and other legal professionals are dedicated to quickly responding to clients' needs and working with them to anticipate future challenges and opportunities. Lathrop GPM was formed in 2020 through the combination of two 100+-year firms, both with strong Midwestern cores – Lathrop Gage (established in Kansas City in 1873) and Gray Plant Mooty (established in Minneapolis in 1866). In 2024 Hopkins Carley joined Lathrop GPM to solidify the firm's presence in Northern California while simultaneously expanding the firm's capabilities across multiple service areas. Today, we offer integrated legal solutions across a broad range of practice areas including intellectual property, litigation, corporate, employment, real estate and more.

TECHNICAL SESSION

Dr. Malaika Tyson: patenting AI and robotics innovations in MedTech

Room 102 E

Wednesday | 3:45 – 4:15 PM

FULL-SERVICE IP PRACTICE

Our 90+ IP practitioners and professionals handle all aspects of patent, trademark, copyright and trade secrets law both domestically and internationally. We support clients across the full innovation lifecycle, from strategy and prosecution to enforcement and litigation. We secure patents for medical devices, consumer goods and manufacturing innovations, including autonomous systems, diagnostics, surgical tools, wearables, industrial systems, software tools and artificial intelligence technologies.
